One of the GardenScape traditions is the Children's Garden,

a place for our younger show goers to have fun, explore, and learn about our green world. Each year's show has its own setting and activities for the children, but the experience is always informal, a bit creative, certainly "hands-on" - and always fun.

Welcome to Cave Rock! **GardenScape 2011**

Calling all Cave Boys and Cave Girls! - Little ones are invited to come - have a rockin good time at our prehistoric garden party! - Get decked out in Cave gear and have your picture taken in an "authentic" Cave Mobile. - Check out the prehistoric wildlife and make your own special planting to take home as a souvenir!

Among the activities for past Children's Gardens:

- Face painting
- Magic Shows
- Painting flower pots then planting marigolds to take home
- Making a balloon terrarium to take home and watch it grow

As always, adults are invited to join in on the fun!
